## **EAR PIERCING AFTERCARE**

- 1) Your ears have been pierced with 24 karat gold studs.
- 2) Clean front and back of earlobes with hydrogen peroxide in the morning and evening.
- 3) After cleaning, apply Biafine emulsion (by prescription) or Aquaphor Healing ointment (OTC) to pierced area BEHIND ear morning and evening.
- 4) Twirl posts gently 2-3 times a day.
- 5) Continue steps 2,3 and 4 for 10-14 days or until crusting ends.
- 6) Do NOT change earrings for 6 weeks.
- 7) Once earrings are removed, 24 karat gold or higher quality earrings are recommended for, at least, the first 3-6 months.
- 8) If any signs of infection develop (ie: pain, redness, warmth, pus drainage) please call the office immediately.
